

Like the sign says . . .

## "HELP YOURSELF" AT IEEE

Just like the do-it-yourselfer and the good housewife, Drake can't bear to throw out perfectly good "left-overs".

Your gain. If the parts box on your personal workbench is well picked over, here is your chance to replenish it with a few indicator lights and lamp-holders that come in so handy on projects of all kinds. All perfectly good stock, just obsolete parts, incomplete or discontinued lines.

Be our guest at the I-triple-E! You can't miss the Drake booth . . . we're right up front. Come and see the "INNOVATIONS" on Drake products.

DRAKE CATALOG**

The extensive DRAKE line includes Miniature Lighting units designed and produced to meet virtually every conceivable requirement for Indicator—Readout—Signal—Illuminating applications, for military specifications, and money-savers for commercial applications.

Many varieties of construction, size, appearance, lens style and color, etc., make selection of the appropriate unit for the great majority of needs a simple matter. And three decades of DRAKE specialization in design and manufacture of Miniature Lighting equipment assure superior workmanship and performance.

*Miniature Lighting Specialists Since 1932*

## DRAKE'S GIFT CERTIFICATE

*(This is not an admittance ticket to IEEE)*

Bring this certificate to the Drake booth at IEEE for your free gift—a useful "Nitelite" you'll enjoy having in your home.

We think you'll enjoy our new exhibit, too!
